Operating Revenue

The summary of the operating revenue reflected in the above table has been extracted from C4 table of the C Schedule attached. During the month of August 2024, the municipality has generated total operating revenue that amounts to R 10.1 million of which R3.1 million from the total operating revenue is for operational grants. The year-to-date actual revenue excluding operational grants amounts to R 13.1 million and the year-to-date budget amounts to R14.8 million which reflects a negative variance amounts to R1.7 million excluding operational grants, which shows that the municipality has under billed in August 2024.

Detailed explanation on revenue by source items.

Property Rates

The municipality has billed revenue of R1.1 million in August 2024. However, the actual year-to-date revenue amounts to R 2.3 million which is 7% lower than the budgeted revenue of R2.4 million for the period under review. This shortfall can be attributed to objections related to the valuation roll and a low payment rate.

Service charges – Electricity.

Municipality has billed revenue of R 1.6 million from Sales of Electricity. However, the year-to-date revenue amounts to R3 million, which reflected a negative variance amounting to 5% thousand when compared to year-to-date budget that amounts to R3.1 million for the period under review. The variance in Electricity Revenue is immaterial.

Service charges – water.

The municipality billed revenue of R358 thousands from Water Services, meanwhile the year-to-date actual amounts to R726 thousand which is 19% more than the year-to-date budget of R 611 thousand for the period under review. Municipality has fixed its waterpipes; majority of section has access to water services.

Service charges – sanitation.

In the month under review, the municipality has generated a revenue of R751 thousand. The year-to-date actual amounts to R1.5 million, which is 20% less than the year-to-date budget of R 1.9 million for the month. Notably, the collection on this service can be enhanced if the municipality enforces its approved credit control and debt collection policies.

Service charges – refuse.

The municipality generated R566 thousands and actual year to date amounts to R 1.1 million which is 3% less than year to date budget that amounts to R1.2 million during the period under review. The variance is immaterial.

Rent from fixed assets.

The municipality did not generate revenue from fixed assets generated during the month of August 2024. The year-to-date actual remained unchanged from the previous month as it amounts to R9.5 thousand and the year-to-date budget amounts to R477 for the month under review, which reflected a variance of 1885%. This variance is caused by incorrect tariff used rental of halls tariff used for renting out the sports facility (stadium).

Interest earned – from receivables.

The municipality has generated revenue amounting to R 1.7 million, with the actual year-to-date revenue standing at R 3.3 million, which is 19% less than the year-to-date budget of R 4.1 million for the current month. The major attribute to this variance is the interest accrued on outstanding debts owed to the municipality. This shortfall has negative implications for the municipal debtor's book, as the accounts remain unpaid for a more extended period and continue to accrue interest.

Fines, penalties, and forfeits

Municipality did not generate any revenue from Fines, penalties and forfeits for month, the year-to-date actual amounts to R0 thousands which is 100% less than the year-to-date budget that amounts to R98 thousands for August 2024.

Transfers recognised – operational.

Other revenue

The municipality did not receive revenue from other revenue for this month, the year-to-date actual remained unchanged from the previous month which amounts to R18 thousands which is 64% less than the projected revenue that amounts to R50 thousands for the period under review.

The above assessment on revenue sources of the municipality does indicate the need to effectively implement the Financial Recovery plan and Budget Funding plan and implementation of credit control and debt recovery policies to ensure improved revenue collection and sustained service delivery.

Total Assets

Variances were noted between the budgeted values of assets and the actual recorded at the end of the review period. As at the end of August 2024, the municipality recorded total assets of R546.1 million which includes R 62.2 million and R483.8 million for both current assets and non-current assets respectively. Current assets are those assets that are likely to be converted into cash within twelve months, while non-current assets are likely to be converted into cash over a longer-term.

Trade and other received from exchange transactions/ non-exchange transactions.

As at the end of August 2024, the municipality recorded consumer debtors (Exchange and non-exchange transactions) of -R11.7 million, representing about-2% of the total assets. Looking at the annual budgeted trade and other receivables of R48.4 million, consumer debtors appear to be understated as compared to the debtor's age analysis. This is due to the failure of customers paying their debt as well as the impact of debt impairment which will be fully affected at the end of the financial year. This is also an indication of the rate at which consumer debtors are escalating. It will be important that council fast-track implementation of its credit control and debt collection strategies (revenue enhancement) to collect the outstanding debtors. The municipality will need to estimate the projected annual debtors and the provision for debt impairment to accurately budget for the consumer debtors projected at the end of the financial year.

Property Plant and Equipment (PPE)

As of 30 August 2024, the municipality recorded R 458.6 million for Property Plant and Equipment, which represents 84% of the total assets. These assets comprise of roads and storm water, water and infrastructure, electricity infrastructure, community assets, and other plants and equipment which the municipality has acquired mainly for service delivery and for its own use. Service delivery of the municipal is majored by its ability to provide these services to communities.

This shows that recorded PPE is R458.6million which is more than the projected amount of R371.5 million for the financial year ending 2024/25.

Total Liabilities

Variances were noted between the budgeted values of liabilities and the actual recorded at the end of August 2024. As at the end August 2024, the municipality recorded total liabilities of 313.4 million which entails of R 305.8 million and R7.6 million for both current liabilities and non-current liabilities respectively. Current liabilities are those liabilities that are payable by the municipality within the twelve months, while non-current liabilities are those liabilities that are payable over a period beyond twelve months.

The current ratio of the municipal's financial position equals to 0.20, which is current assets divided by current liabilities (62 201/ 305 750). According to the acceptable norms, a current ratio which is less than 1 shows that the municipality is unable to pay its short term debts (current liabilities) using its cash on hand (Current assets). This also shows that institution is not liquid enough and it is financial unstable. The municipality needs to improve on its abilities to raise current assets so that it can be in a better position to pay off debts when they become due.

PART 2: SUPPORTING DOCUMENTATION

6. Debtors' Analysis

The outstanding debtors as at 30 August 2024 amounts to R 433.9 million which shows an increase of R4.9 million in debtors' book when compared to July 2024 outstanding debtors that amounts to R428.9 million. The largest outstanding amount owed to the municipality is coming from households; this category owes R397.7 million, which incurs interest each month. The long outstanding consumer debts may negatively affect the sustainability of the municipality. Due to incorrect billing, average collection rate is -4% for the month of August 2024. The effective implementation of the debt collection and credit control is critically essential to ensure the sustainability of the municipality; this figure is due to old debts. The Municipality needs to work harder on collecting and consider to write off old debt.

As at 30th August 2024, creditors ageing analysis had a balance of R266.6 million. This includes Eskom, VaalHartswater, Auditors General and others. This ageing balance might be understated as some of the creditor's invoices were not all captured on the financial system. One of the major impacts for a huge balance is non-payment of creditors as a result of cash constraints.

It can then be noted that a total of R45.4 million was received to date for both operational and capital grants, from the total R38.3 million (VAT Inc) is committed or spent to date which translates into 33% spent on grants and subsidies on both Conditional and Unconditional Grants.

The following conditional grants managed to spend above 16% as at the end of August:

- I. Expanded Public Works programme.
- II. Local Government Financial Management Grant
- III. Water Services Infrastructure Grant

This shows that the municipality is in a better position to spent or commit 100% of the allocation before the end of the current financial year.

FBDM (O&M) transfers are made on submission of invoices to the District Municipality.

The table above illustrate expenditure on councillor's remuneration and employees.

Section 66 of the MFMA requires that the accounting officer of a municipality must, in a format and for the periods as may be prescribed, report to the council on all expenditure incurred by the municipality on staff salaries, wages, allowances and benefits and in a manner that discloses such expenditure per type of expenditure, namely-

- I. Salaries and wages
- II. Contribution for pension and medical aid
- III. Travel, motor car, accommodation, subsistence and other allowances.
- IV. Housing benefits
- V. Overtime
- VI. any other benefit or allowance related to staff.

For the period under review the municipality has incurred an expenditure amounting to R4.1 million from a total original budget of R59.9 million. The expenditure seems to be slightly within the budget projection, the actual year to date amounts to R 7.8 million which is 22% below the projected budget for this current month when compared to our year-to-date budget which amounts to R 9.9 million.

Cost containment measures still need to be exercised to ensure expenditure is kept at a minimum, especially on overtime and standby allowance.

13. Conclusion

The municipality's MFMA S71 statement content -

as part of the monthly conclusion paragraphs, must advise as part of the MFMA Circular 124: Condition 6.9 reporting –

The mitigating factors:

1. The Municipality is in the process of installing smart prepaid meters in Eskom supplied areas.
2. The Municipality to do roadshows with the support of ward councillors and ward committees to educate communities on the importance of paying municipal services.

The risks associated:

1. The municipality does not collect enough revenue due to Eskom supplied areas, and resistance by consumers in the implementation of credit control and debt collection measures.
2. The municipality might not be able to provide basic services to the communities due to low indigent registration.
3. The going concern whereby the liabilities may be more than the assets.
