## 1.1 PURPOSE

To submit a report to council within 30 days of the end of each quarter on implementation of the Budget and Financial state of the Municipality as required by Section 52 of the Municipal Finance Management Act

## 1.2 Mayors Report

The municipality's budget is being implemented in line with service delivery budget implementation plan. The municipality however still faces key financial risks that threaten the sustainability of the institution. The following are some of the key risks identified:

- Low Collection rate is affecting the cash flow of the municipality.
- Outstanding creditors especially Eskom and Vaalharts water,
- The municipality will be embarking on a Credit Control and Indigent Assistance Awareness Campaign. Through this campaign we seek to educate Consumers on the importance of the payment of accounts and the detrimental effect non-payment has on service delivery. We aim to have our customers (from all our Customer Groups) that are in arrears and are able to pay their accounts, to make payment or make a payment arrangement on their account. The campaign will also inform and create awareness to Customers as to the assistance provided by the Municipality in relation to the payment of accounts (our social package, discounts and incentives)
- Water Crisis due to Construction of Bulk Water Pipeline & Emergency Repairs on the Existing 500MM main supply Bulk Water Pipeline.

## 1.3 Executive Summary

Section 52 of the Municipal Finance Management Act deals with requirements for quarterly reporting and further states that the Mayor of the Municipality must within 30 days of the end of each quarter submit a report to council on implementation of the Budget and the financial state of the Municipality.

## REFER TO TABLE SC1 FOR MATERIAL VARIANCE EXPLANATIONS

### Revenue

For the Fourth quarter April to June 2023, the municipality billed R17.6 million with the year to date actual amounting to R 127.2 million and the year to date budget of R 135.1 million which shows a negative 6% year to date variance when comparing year to date actual with the year to date budget.

### Operating Expenditure

The operating expenditure for the fourth quarter amounts to R 40.1 million with the year to date actual amounting to R 141.9 million whilst the year to date budget is R 167.3 million, This results in a negative 15% year to date variance when comparing the year to date actual with the year to date budget.

### Capital Expenditure

The year to date actual capital expenditure as at end of fourth quarter amounts to R 3.7 million and the year to date actual amounts to R 24.7 million and this deviates with negative variance of 48% when compared to year to date target of R47,4 million.

### Surplus/Deficit after capital transfers and contributions

Taking the above into consideration, the net operating surplus as at the end of 30 June 2023 amounts to R 12.9 million.

### Debtors

Outstanding debtors' is comprised of consumer and sundry debtors. The total outstanding debtors as at end of June amounts to R 381.3 million and this show an increase of R38.6 million as compared to R 342.7 million as at end of 2021/22 financial year. Current cash flow and very low cashier collection at points, disconnection and blocking of institutions, businesses and Government Departments without valid arrangements with the municipality, should be done with immediate effect.

The biggest concern regarding debt collection in the municipality is its inability to collect service charges in areas (mainly Ikhukseng) where electricity is not supplied by the municipality.

Consumer debtors are made up of service charges and property rates that amount to R252.5 million and other debtors amounting to R128.8 million.

### Creditors

The municipality is currently striving for paying its creditors within 30 days of receipt of invoice as required by MFMA. However, the municipality has instances where the cash flow position was quite unfavorable, and it was then unable to service certain creditors as and when they became due. This resulted in the municipality incurring penalties and/or fruitless and wasteful expenditure due to late payment.

As at 30 June 2023 the municipality had an outstanding creditors amounting to R252.3 million and the bulk of this amount is made up by Bulk water: R 125.7 million and bulk electricity: R 103.5 million.

Table C2 and C3 measures the quarterly actual against the year to date performance targets which is realized by vote and standard classification. The variances are all reflected in the year to date variance column.

The financial results portrayed in the two tables are the same as those in other tables (i.e. it is only the description or basis of reporting that is based on financial or budget performance by vote or department, and National Treasury's standard classification.

Table C4 provides budget performance details for revenue by source and expenditure by type. For revenue, the main deviations from budget projections are on property rates, service charges, electricity, refuse, rental of facilities and equipment, interest earned, external investments, interest on outstanding debtors, fines, penalties and forfeits, licenses and permits and other revenue.

In the case of expenditure, the following line items reflect material variance; Remuneration of councillors, Bulk purchases, other expenditure, debt impairment, depreciation and asset impairment, finance charges, employee related costs, other materials, and transfer and subsidies.

Reasons for deviations will only be provided for material variances and a variance is deemed to be material if it is 10% and more. Refer to table SC1.

Table C5 Capex and **C5C** present capital expenditure performance for all votes, standard classification and the funding thereof and measures the year-to-date performance targets against the actual capital expenditure figures. R 24.7 million spending was incurred on capital budget, year to date budget is R 47.4 million, and this gave an under-performance variance of R22.6 million that translates a negative variance of 48%.

FIGURE 1: MONTHLY CAPITAL EXPENDITURE PERFORMANCE

The above graph compares the 2021/22 and 2022/23 quarterly capital expenditure performance.

FIGURE 2: CAPITAL EXPENDITURE BY SOURCE OF FINANCE

The above graph shows the components of sources of finance for capital budget, the total capital budget amounted to R23.6 million of which R 18.6 million is for Municipal Infrastructure Grant, R9 million is for Water Services Infrastructure Grant, After the adjustment budget the total capital Budget amounts to R43.4 million considering an additional R19.8 million, which is made off R18.6 million is funded by Regional Bulk Infrastructure Grant and R1.5 million is funded by Frances Baard District and the spending per source of finance is presented in the above graph.

Taking the current liabilities and current assets together, the municipality has a current ratio of 0.24 that is below the acceptable norm of 1.5. The municipality still needs to keep the current liabilities low and increase the current assets to strengthen the liquidity ratio; the current situation suggests that the municipality would struggle to meet its short-term obligations.
